

PENN Entertainment, Inc. Reports First Quarter Results

April 23, 2026

WYOMISSING, Pa.--(BUSINESS WIRE)--Apr. 23, 2026-- PENN Entertainment, Inc. ("PENN" or the "Company") (Nasdaq: PENN) today reported financial results for the quarter ended March 31, 2026.

Jay Snowden, Chief Executive Officer and President, said: "We are pleased to report another solid quarter. Retail Segment Adjusted EBITDAR grew year-over-year and stable trends are carrying into April. In our Interactive segment, continued online casino growth combined with positive trends in Ontario are driving momentum as we prepare for the anticipated July 13 launch of regulated iCasino and online sports betting in Alberta¹. Importantly, we are executing on the plan we outlined last quarter, driving Retail and Interactive growth, optimizing corporate overhead, making disciplined capital investments, and continuing to delever.

First Quarter Retail Segment Highlights²:

- Revenues of \$1.4 billion;
- Segment Adjusted EBITDAR of \$471.4 million; and
- Segment Adjusted EBITDAR margins of 33.2%.

"Trends were encouraging across the portfolio, with strength in our West segment reflecting the continued ramp of M Resort's new hotel tower and strong execution by the team at Ameristar Casino Resort and Spa in Black Hawk, Colorado," said Mr. Snowden. "Increased visitation and higher spend per visit companywide supported year-over-year theoretical revenue growth across all rated worth segments, representing our largest quarterly increase in three years. We recently announced the June opening dates¹ for the new hotel tower at Hollywood Columbus and the new Hollywood Casino Aurora and remain excited about the anticipated returns on our development project investments based on the success to date from our recent openings at Hollywood Casino Joliet and M Resort.

¹ Subject to regulatory approvals.

² Retail Segment consists of retail operating segments which are composed of our Northeast, South, West, and Midwest reportable segments.

First Quarter Interactive Segment Highlights:

- Revenues of \$358.3 million (including tax gross up of \$185.8 million); and
- Adjusted EBITDA loss of \$10.8 million.

"Our Interactive segment delivered a meaningful Adjusted EBITDA improvement year-over-year, which marks the first full quarter under our realigned digital strategy. iCasino revenue growth of approximately 15% year-over-year was driven by the continued momentum of standalone iCasino, which notably achieved record quarterly revenue in the first quarter as well as record monthly revenue in March. The trends we are seeing provide us with confidence in the trajectory of the business and upcoming launch in Alberta¹," concluded Mr. Snowden.

Liquidity and Financial Position

On March 16, 2026, the Company issued \$600.0 million of unsecured notes due 2031 at an interest rate of 6.75%. Net proceeds were used to repay borrowings under PENN's revolving credit facility.

Total liquidity as of March 31, 2026 was \$1.7 billion inclusive of \$708.0 million in Cash and cash equivalents. Traditional net debt as of the end of the quarter was \$2.2 billion.

On April 16, 2026, the Company amended its Second Amended and Restated Credit Agreement in order to refinance and extend the term of its \$1.0 billion Amended Revolving Credit Facility and \$446.9 million Amended Term Loan A Facility. The Company's existing Amended Term Loan B Facility was not refinanced as part of this transaction.

Reportable Segment Measures

Segment Adjusted EBITDAR is our measure of profit or loss for our reportable segments and underlying operating segments. We define Segment Adjusted EBITDAR as earnings before interest expense, net, interest income, income taxes, depreciation and amortization, stock-based compensation, debt extinguishment charges, impairment losses, insurance recoveries, net of deductible charges, changes in the estimated fair value of our contingent purchase price obligations, gain or loss on disposal of assets, the difference between budget and actual expense for cash-settled stock-based awards, pre-opening expenses, loss on disposal of a business, non-cash gains/losses associated with REIT transactions, and other. Segment Adjusted EBITDAR excludes rent expense associated with triple net operating leases (which is a normal, recurring cash operating expense necessary to operate our business). Segment Adjusted EBITDAR is inclusive of income or loss from unconsolidated affiliates, with our share of non-operating items (such as interest expense, net, and depreciation and amortization) added back for our Kansas Entertainment, LLC joint venture. Segment Adjusted EBITDAR margin is Segment Adjusted EBITDAR divided by related segment revenues.

Non-GAAP Financial Measures

The Non-GAAP Financial Measures used in this press release include Consolidated Adjusted EBITDA, Adjusted EPS, Traditional net debt, Traditional net leverage ratio, and Lease-adjusted net leverage ratio. These non-GAAP financial measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP.

We define Consolidated Adjusted EBITDA as earnings before interest expense, net, interest income, income taxes, depreciation and amortization, stock-based compensation, debt extinguishment charges, impairment losses, insurance recoveries, net of deductible charges, changes in the estimated fair value of our contingent purchase price obligations, gain or loss on disposal of assets, the difference between budget and actual expense for cash-settled stock-based awards, pre-opening expenses, loss on disposal of a business, non-cash gains/losses associated with REIT transactions, and other. Consolidated Adjusted EBITDA is inclusive of income or loss from unconsolidated affiliates, with our share of non-operating items (such as interest expense, net, and depreciation and amortization) added back for our Kansas Entertainment, LLC joint venture. Consolidated Adjusted EBITDA is inclusive of rent expense associated with our triple net operating leases with our REIT landlords. Although Consolidated Adjusted EBITDA includes rent expense associated with our triple net operating leases, we believe Consolidated Adjusted EBITDA is useful as a supplemental measure in evaluating the performance of our consolidated results of operations.

Consolidated Adjusted EBITDA has economic substance because it is used by management as a performance measure to analyze the performance of our business, and is especially relevant in evaluating large, long-lived casino-hotel projects because it provides a perspective on the current effects of operating decisions separated from the substantial non-operational depreciation charges and financing costs of such projects. We present Consolidated Adjusted EBITDA because it is used by some investors and creditors as an indicator of the strength and performance of ongoing business operations, including our ability to service debt, and to fund capital expenditures, acquisitions, and operations. These calculations are commonly used as a basis for investors, analysts and credit rating agencies to evaluate and compare operating performance and value companies within our industry. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their Consolidated Adjusted EBITDA calculations certain corporate expenses that do not relate to the management of specific casino properties. However, Consolidated Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with GAAP. Consolidated Adjusted EBITDA information is presented as a supplemental disclosure, as management believes that it is a commonly used measure of performance in the gaming industry and that it is considered by many to be a key indicator of the Company's operating results.

Adjusted EPS is diluted earnings or loss per share adjusted to exclude gains/losses on the disposal of a business, non-cash gains/losses associated with REIT transactions, impairment losses, pre-opening expenses, debt extinguishment charges, gains/losses on the disposal of assets, foreign currency gains/losses, transaction related expenses, business interruption insurance proceeds, net gains/losses related to equity investments, and other.

Adjusted EPS is a non-GAAP measure and is presented solely as a supplemental disclosure to reported GAAP measures because management

believes this measure is useful in providing period-to-period comparisons of the results of the Company's operations to assist investors in reviewing the Company's operating performance over time. Management believes it is useful to exclude certain items when comparing current performance to prior periods because these items can vary significantly depending on specific underlying transactions or events. Further, management believes certain excluded items may not relate specifically to current operating trends or be indicative of future results. Adjusted EPS should not be construed as an alternative to GAAP earnings per share as an indicator of the Company's performance.

We calculate Traditional net debt as Total traditional debt, which is the principal amount of debt outstanding less Cash and cash equivalents. Management believes that Traditional net debt is an important measure to monitor leverage and evaluate the balance sheet. With respect to Traditional net debt, Cash and cash equivalents are subtracted from the GAAP measure because they could be used to reduce the Company's debt obligations. A limitation associated with using Traditional net debt is that it subtracts Cash and cash equivalents and therefore may imply that there is less Company debt than the most comparable GAAP measure indicates. Management believes that investors may find it useful to monitor leverage and evaluate the balance sheet.

The Company's Traditional net leverage ratio is defined as Traditional net debt (as defined above) divided by (i) Consolidated Adjusted EBITDA (as defined above) for the trailing twelve months plus (ii) rent expense associated with triple net operating leases for the trailing twelve months less (iii) cash rent payments to REIT landlords for the trailing twelve months. Management believes this measure is useful as a supplemental measure and provides an indication of the results generated by the Company in relation to its level of indebtedness with the cash generated from Company operations.

The Company's Lease-adjusted net leverage ratio's numerator is calculated as cash rent payments to REIT landlords for the trailing twelve months capitalized at 8 times plus Traditional net debt (as defined above). The Company's Lease-adjusted net leverage ratio's denominator is Consolidated Adjusted EBITDA (as defined above) for the trailing twelve months plus rent expense associated with triple net operating leases for the trailing twelve months. Management believes this measure is useful as a supplemental measure and provides an indication of the results generated by the Company in relation to its level of indebtedness (including leases) with the cash generated from Company operations.

Each of these non-GAAP financial measures is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure of comparing performance among different companies. See the tables above, which present reconciliations of these measures to the GAAP equivalent financial measures.
