Adjusted EBITDA is income (loss) from operations, excluding the impact of stock compensation, impairment losses, Hollywood Casino Joliet fire, depreciation and amortization, and gain or loss on disposal of assets, and is inclusive of loss from unconsolidated affiliates. A reconciliation of net (1) income (loss) attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries per accounting principles generally accepted in the United States of America ("GAAP") to adjusted EBITDA, as well as income (loss) from operations per GAAP to adjusted EBITDA, is included in the accompanying financial schedules.

(2) The figures in these columns present the guidance Penn National Gaming provided on October 21, 2010 for the three and twelve months ended December 31, 2010.

Since the Company reported a loss from operations for the three and twelve months ended December 31, 2010 and 2009, it was required by (3) GAAP to use basic weighted-average common shares outstanding, rather than diluted weighted-average common shares outstanding, when calculating diluted loss per common share attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries.

(1) The figures in these rows present the guidance Penn National Gaming provided on October 21, 2010 for the three months ended December 31, 2010.

Peter M. Carlino, Chairman and Chief Executive Officer of Penn National Gaming commented, "We are very pleased with fourth quarter casino operating results which compare favorably to the prior year. Ten of Penn National's fifteen gaming properties grew net revenue, twelve of fifteen properties generated year-over-year improvements in Adjusted EBITDA and eleven properties successfully increased Adjusted EBITDA margins.

"Overall, Adjusted EBITDA -- excluding corporate overhead, unconsolidated affiliates and Perryville -- increased 16.8% for the quarter. Although our unconsolidated nongaming affiliates were a drag on Adjusted EBITDA, the impact was primarily attributable to the \$14.4 million impairment charge and lobbying costs incurred in the fourth quarter at Maryland Jockey Club which are not expected to recur.

"The fourth quarter and full year GAAP net loss reflects fourth quarter pre-tax impairment charges of \$193.2 million, as a portion of the goodwill and other intangible assets associated with the Company's original purchase of the Aurora and Joliet facilities was deemed to be impaired based on the planned 2011 opening of Illinois' tenth gaming facility and the continued challenging operating environment in the state.

"While we are encouraged by our fourth quarter performance and early indications for an overall improvement in the economy, our current outlook and guidance for 2011 contemplates a continuation of the trends we saw in 2010 until we gain more visibility of a meaningful recovery.

"Reflecting our strong free cash flow from operations, during the quarter we repaid \$85 million of the \$145 million that was drawn on our revolving credit facility to partially fund the October 2010 acquisition of all of the outstanding debt of The M Resort LLC. The debt purchase has positioned Penn National to own an upscale locals- and destination-oriented casino resort in the Las Vegas market where we believe our operating discipline and active player database can improve the property's financial performance. In early January, we began sending offers to stay at The M to some of our highest value players and while it is still early, the response has been encouraging. We believe we are close to completing negotiations with the property's equity holders regarding ownership and future operations and are simultaneously working with Nevada gaming regulators to secure necessary approvals for the transaction.

"In addition to progress made during the fourth quarter with our three casino development projects in Ohio and Kansas, with M Resort in Las Vegas, and with existing operations, Penn National furthered its long-term strategy to diversify and grow its presence in key markets. We are currently seeking Louisiana's fifteenth gaming license and in December provided details of our proposal to bring a first class gaming vessel to the Harvey Canal in Jefferson Parish. The project's nearly \$150 million first phase investment would bring capacity for up to 1,500 slots machines, 44 table games, a parking facility and an upscale buffet and steakhouse, as well as other food and beverage offerings and a multipurpose room. As part of the proposed \$155 million second phase investment, Penn National would add a 250-room hotel, an additional parking garage, a dedicated entertainment showroom and a pedestrian skywalk that would connect these amenities to the riverboat. Given our well-documented facility development track record and strong and sustained operating results, we are confident that our proposal is highly competitive, has the highest certainty of completion and has the least risk among the three proposals seeking this license. Accordingly, we are prepared to fund a significant escrow account to demonstrate our unmatched financial liquidity and our genuine commitment to the project, Jefferson Parish and the State of Louisiana.

"Like our other development projects, Hollywood Casino Harvey is expected to bring both immediate and long-term employment and economic benefits to the local community as the project's first phase alone is expected to create significant construction jobs and several hundred operations positions once the facility opens. In addition, Hollywood Casino Harvey is projected to generate approximately \$30 million in annual gaming taxes for the State of Louisiana and \$8 million for Jefferson Parish and Penn National has committed to paying the same 6% local tax rate to Jefferson Parish and its towns and cities as the existing riverboat does. The Jefferson Parish Council recently passed a resolution allowing Parish citizens to vote on

whether they support the development of the proposed riverboat gaming facility if Penn National Gaming is awarded the provisional gaming license, which is expected to be granted by the Louisiana Gaming Control Board this spring.

"Late in the fourth quarter, The Maryland Jockey Club reached an agreement with local horsemen to run 146 live racing days at Laurel Park and Pimlico and preserve the Preakness(R) Stakes, the second leg in thoroughbred racing's Triple Crown and the cornerstone event at the facility. Pursuant to the agreement, these tracks, which have recently generated significant losses, are expected to receive financial subsidies from the state and horsemen, saving jobs and significantly reducing future operating losses. Longer-term, we continue to believe that bringing a video lottery terminal (VLT) operation to Laurel Park would guarantee the preservation of Maryland's rich racing heritage and the existing jobs and other economic benefits associated with the racing industry. We remain prepared to deploy our extensive racing and gaming industry knowledge and strong financial resources to work with political leaders, local horsemen and community members to secure a license to operate VLTs at Laurel Park. We are ready to do the same in Ohio, where we are monitoring efforts to bring VLTs to the state's seven racetracks, two of which we own. Penn National remains highly focused on leveraging its facility development and operating expertise to expand its presence to any jurisdiction considering the expansion of gaming.

"With significant progress building Adjusted EBITDA throughout 2010 -- despite the still challenging economic environment -- while actively expanding our base of operations and development pipeline, we believe Penn National is well positioned to generate near- and long-term shareholder value and extremely well positioned to benefit from any further improvements in consumer spending."

Diluted	77,636	78,351	78,079	78,122

**Diluted Share Count Methodology**

Reflecting the issuance of 12,500 shares on October 30, 2008 of the \$1.25 billion, zero coupon, Series B Redeemable Preferred Stock and the repurchase of 225 shares in the first quarter of 2010, Penn National Gaming is required to adjust its diluted weighted average outstanding share count for the purposes of calculating diluted earnings per share as follows:

- When the price of Penn National Gaming's common stock is less than \$45, the diluted weighted average outstanding share count is increased by 27,277,778 shares (regardless of how much the stock price is below \$45);
- When the price of Penn National Gaming's common stock is between \$45 and \$67, the diluted weighted average outstanding share count will be increased by an amount which can be calculated by dividing the \$1.23 billion (face value) by the current price per share. This will result in an increase in the diluted weighted average outstanding share count of between 18,320,896 shares and 27,277,778 shares depending on the current share price; and,
- When the price of Penn National Gaming's common stock is above \$67, the diluted weighted average outstanding share count will be increased by 18,320,896 shares (regardless of how much the stock price exceeds \$67).

Since the Company reported a loss from operations for the three and twelve months ended December 31, 2010 and 2009, it was required by GAAP to use basic weighted-average common shares outstanding, rather than diluted weighted-average common shares outstanding, when calculating diluted loss per common share attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries.

**Repurchases of Common Stock**

The repurchase of up to \$200 million of Penn National Gaming's Common Stock over the twenty-four month period ending July 2010 was authorized by Penn National Gaming's Board of Directors in July 2008. On June 9, 2010, Penn National Gaming's Board of Directors authorized the repurchase of up to \$300 million of Common Stock effective immediately and continuing until the Annual Meeting of Shareholders in 2011, unless otherwise

extended or shortened by the Board of Directors. This new repurchase program replaced the program authorized by the Board of Directors in July 2008.

Since April 1, 2010, Penn National Gaming repurchased 1,526,400 shares of its Common Stock in open market transactions for approximately \$35.9 million at an average price of \$23.49 per share pursuant to prior and current repurchase authorizations.

### **Reconciliation of Non-GAAP Measures to GAAP**

Adjusted EBITDA, or earnings before interest, taxes, stock compensation, impairment losses, Hollywood Casino Joliet fire, depreciation and amortization, gain or loss on disposal of assets, and other income or expenses, and inclusive of loss from unconsolidated affiliates, is not a measure of performance or liquidity calculated in accordance with GAAP. Adjusted EBITDA information is presented as a supplemental disclosure, as management believes that it is a widely used measure of performance in the gaming industry. In addition, management uses adjusted EBITDA as the primary measure of the operating performance of its properties, including the evaluation of operating personnel. Adjusted EBITDA should not be construed as an alternative to operating income, as an indicator of the Company's operating performance, as an alternative to cash flows from operating activities, as a measure of liquidity, or as any other measure of performance determined in accordance with GAAP. The Company has significant uses of cash flows, including capital expenditures, interest payments, taxes and debt principal repayments, which are not reflected in adjusted EBITDA. It should also be noted that other gaming companies that report adjusted EBITDA information may calculate adjusted EBITDA in a different manner than the Company. Adjusted EBITDA is presented as a supplemental disclosure, as management believes that it is a principal basis for the valuation of gaming companies, as this measure is considered by many to be a better indicator of the Company's operating results than diluted net income (loss) attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries per GAAP. A reconciliation of the Company's adjusted EBITDA to net income (loss) attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries per GAAP, as well as the Company's adjusted EBITDA to income (loss) from operations per GAAP, is included in the accompanying financial schedules.

A reconciliation of each property's adjusted EBITDA to income (loss) from operations is included in the financial schedules herein. On a property level, adjusted EBITDA is reconciled to income (loss) from operations per GAAP, rather than net income (loss) attributable to the shareholders of Penn National Gaming, Inc. and subsidiaries per GAAP due to, among other things, the impracticability of allocating interest expense, interest income, income taxes and certain other items to the Company's various properties on a property-by-property basis. Management believes that this presentation is more meaningful to investors in evaluating the performance of the Company's individual properties and is consistent with the reporting of other gaming companies.
